

Recipe for Natural Body Cream for Nursery Kids

1. Project Overview

A natural body cream was successfully created and distributed to 22 nursery children (ages 3–6) at Mango Pre-School.

The aim was to provide a gentle, natural skin care product suitable for children.

2. Usage and Impact

The cream was prepared and shared among the nursery children.

Some parents also took some home for their own skin care routines.

The children enjoyed taking part in the activity, and adults were encouraged to use natural skin care products.

The project helped promote

- Awareness of natural skin care
- Health and well-being for children
- Community involvement and learning

3. Ingredients and Purpose

The cream was prepared using the following natural ingredients:

- Beeswax for moisturizing and protective properties
- Olive oil for hydration
- Coconut oil for nourishment
- Shea butter for softening the skin
- Yellow shea butter to give the cream a beautiful look
- Neem oil added in small quantity for additional skin benefits
- Small containers for packaging and distribution

4. Budget and Cost Breakdown

An Amount of 8.170 Dalasi was provided to prepare the natural body cream

- | | | |
|----------------------|------|-----------|
| ▪ Bee wax | 2 kg | 1.500 Dal |
